DESCRIPTION OF THE YOUTH EXCHANGE

The project “European Intercultural Dialogue” discusses the rise of nationalism in Europe and its negative impact on minorities and immigrants.

It argues that nationalism is based on dehumanizing discourses that blame minorities and immigrants for a variety of problems, and that these discourses lead to exclusionary policies and violence.

The project also discusses the importance of intercultural learning and counter-nationalistic narratives in combating nationalism. The youth exchange project described in the text aims to foster cultural rights, intercultural learning, and counter-nationalistic narratives among young people. It will bring together young people from 6 countries where nationalism has been on the rise in recent years.

The project will target youth from both privileged and disadvantaged backgrounds, and it will provide them with opportunities to learn about different cultures and to develop critical thinking skills.

The project is designed to help young people resist the appeal of nationalism and to promote intercultural dialogue.

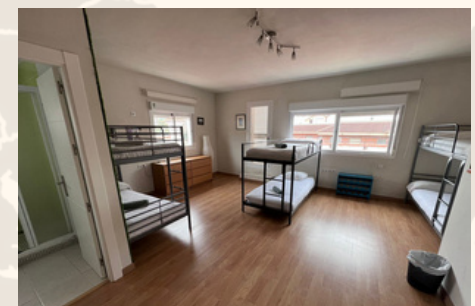

Objectives:

- To stress the significance of cultural rights and intercultural learning-dialogue as means to prevent ethnic conflicts and youth radicalization
- To underscore how youth-led initiatives can discourage nationalism and radicalization and further foster intercultural dialogue at the grass-roots level in multicultural societies such as Spain, Serbia, Hungary, Rumania, Germany, and Turkey
- To foster inclusion, acceptance, and respect for other cultures among participants that will be attending the youth exchange as direct beneficiaries
- To equip youth with knowledge and help them acquire intercultural competencies to counter nationalistic discourse that leads to hate speech/crime, violent extremism, and radicalization
- To encourage youth participation in civic life as a way to champion and practice intercultural learning and dialogue in the communities they live in
- We trust that through the activities foreseen to take place under this project youth coming from the countries mentioned above shall be cautious of their role in championing intercultural dialogue and countering nationalistic discourses in their communities.

INTERCULTURAL EVENING

During the project, we plan to arrange an Intercultural evening. You will present your own cultures – national, regional, personal or any kind of culture you feel you belong to. A culture may be presented by a song, a story, a poem, a dance, some drink or food, etc. You may bring pictures, music or anything which you consider to be most appropriate to present your culture.

We appreciate if you find some creative way to present your culture. We will not have a kitchen to prepare the meals for the intercultural evening, so we suggest that you adapt your food and drinks to that reality.

So, in short it should not be a presentation, it should be an activity or something and it is up to you to replace the word something.
